

June 10, 1939.

Mr. Millard E. Cuskaden,
Collector of Delinquent Accounts,
Unemployment Compensation Commission,
Trenton, N. J.

Re: File No. M 15899

Dear Sir:

On June 7, 1939 I wrote you concerning my 1937 taxes and said my records showed the amount due to be \$374.17, but on going over my books and reading your Notices again I discovered my error. It is as follows:

My total pay roll for the Baseball Club for 1937 was \$12,301.00, I figured 1.8% of this was \$221.41 employer's tax, and 1% was \$123.01 employee's tax. The total payroll for Park Help was \$1059.00, and 1.8% of this is \$19.06, employer's tax, and 1% is \$10.59, so I added the total amount which is \$374.07, so I figured this is the amount due you for 1937 and I asked your permission to pay this sum off at the rate of \$100.00 per month starting July 1st.

I have been advised by your local office here at #1060 Broad St., that employees did not have to pay any tax until after December 31, 1937, therefore, I am excluded from paying the \$123.01 and the \$10.59, which makes a total of \$133.60. This amount subtracted from \$374.07 would make the amount due you \$240.47.

Would you kindly go over my figures and inform me if I am not right in making this correction.

Thanking you very kindly for your co-operation in adjusting matters.

Yours very truly,

EM:CCJ
